Well we're seniors now, we can't believe it's true.
Getting ready to graduate and leave this school.
There are many teachers we will always remember.
Even though we won't see them next September.

Mr. Olick, a Social Studies teacher whom we'll never forget,
He taught us words we still don't know the meaning of yet.

We can't forget Mrs. Matyjas the Geometry teacher,
The way she taught she seemed like a Geometry preacher.

Then there's the Chemistry teacher Mrs. Yore,
She taught us Chemistry cause that's what she's for.

There's Mr. Brodfehurer, who taught Industrial Arts,
Mainly Electricity, that had transistors and other little parts.

Also Miss Carballo, who taught English eleven,
After the first week we wanted to die and go to Heaven.

We can't forget the administration Curly, Larry, and Moe,
Who are proud, glad, and relieved to see us go.

There are so many things we will never forget,
Many more things will happen, this year aint over with yet.

There's the Bonfire with the Spartan, me, Mike Barone
Out there looking like a fool and was all alone.

Then the Powder Puff football game, I forget the score.
But, '86' won like they did the year before.

The Pep Assembly that was almost not a this school,
But Mr. Mills redeemed himself by being a girl, and looking like a fool.

The Homecoming at Hotel Niagara, right next to the Rainbow Mall.
That was the best Homecoming out of 'em all.

There are memories of the past years.
Thinking of them brings out tears.

When we were little 7th and 8th graders in F-wing,
Running around the hall like we didn't know a thing.

Who can forget what happened in the lower F-wing lav,
it is one memory I wish I didn't have.
When two kids took my head and put it in a toilet.
They said don't tell anyone, cause their fun, I would spoil it.

Then we were 9th graders, Freshman was our name
After that things were not quite the same.

Kids were doing things of all different sorts,
Some of us were even on Varsity sports.

Then we became Sophomores in 10th grade,
We thought two more years and we have it made.

Some of us turned 16 and got licenses to drive.
It was then that our social life started to thrive.

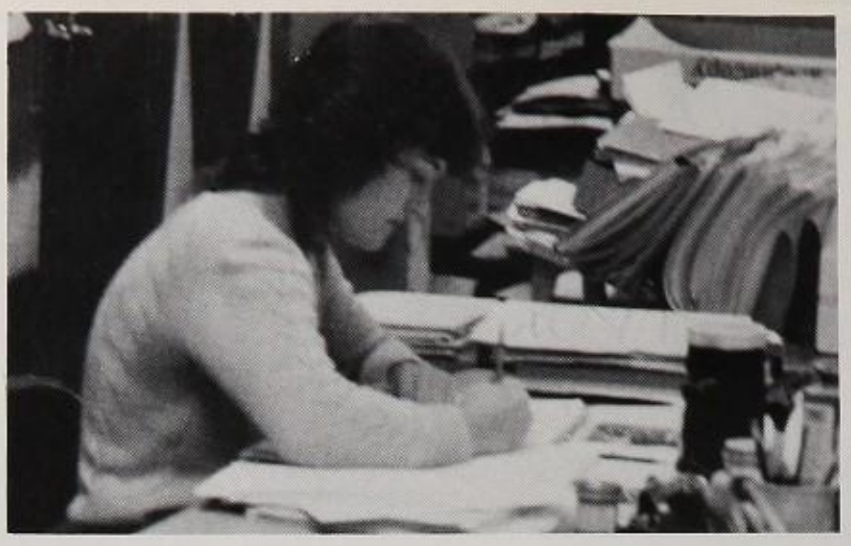
Our Junior year was when we started to have fun,
Because the years we had left was only one.

The Beach Party was the big event that year.
There was real sand, volleyball and rootbeer.

Now we are Seniors our last year in school.

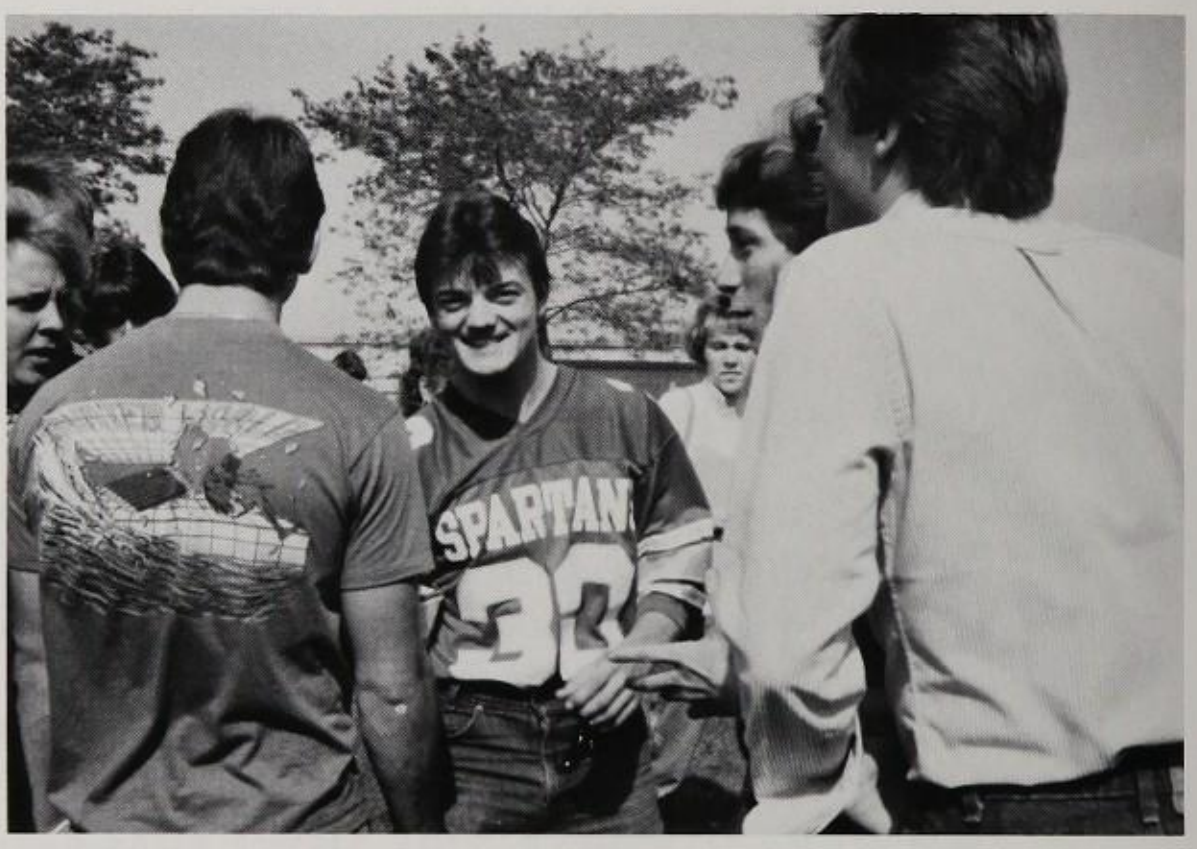
After graduation I wonder what we'll do.
Some will go in the service, others to college,
Either way they will fill their heads with knowledge.

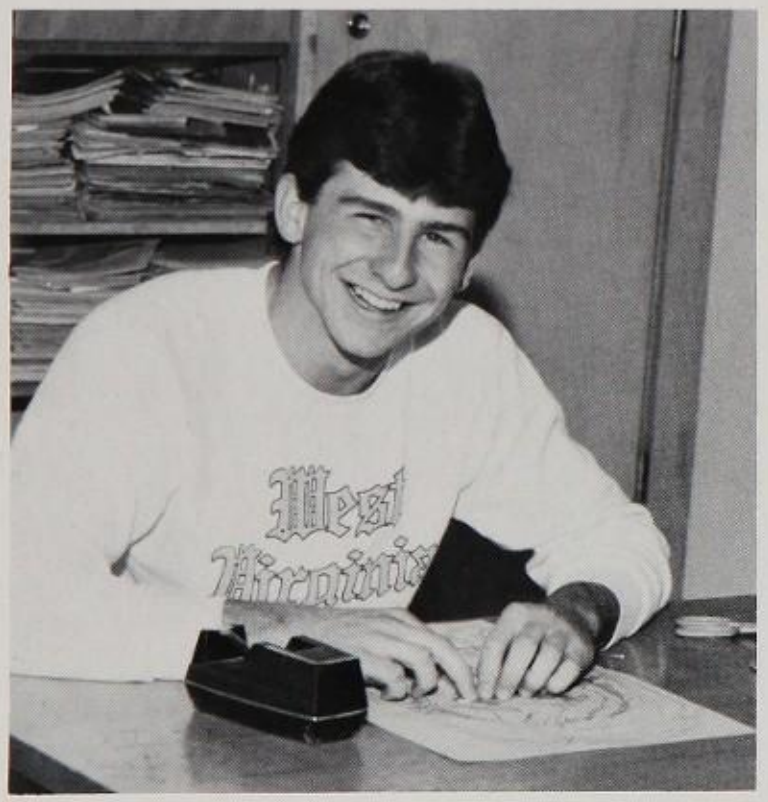
Is anyone looking?



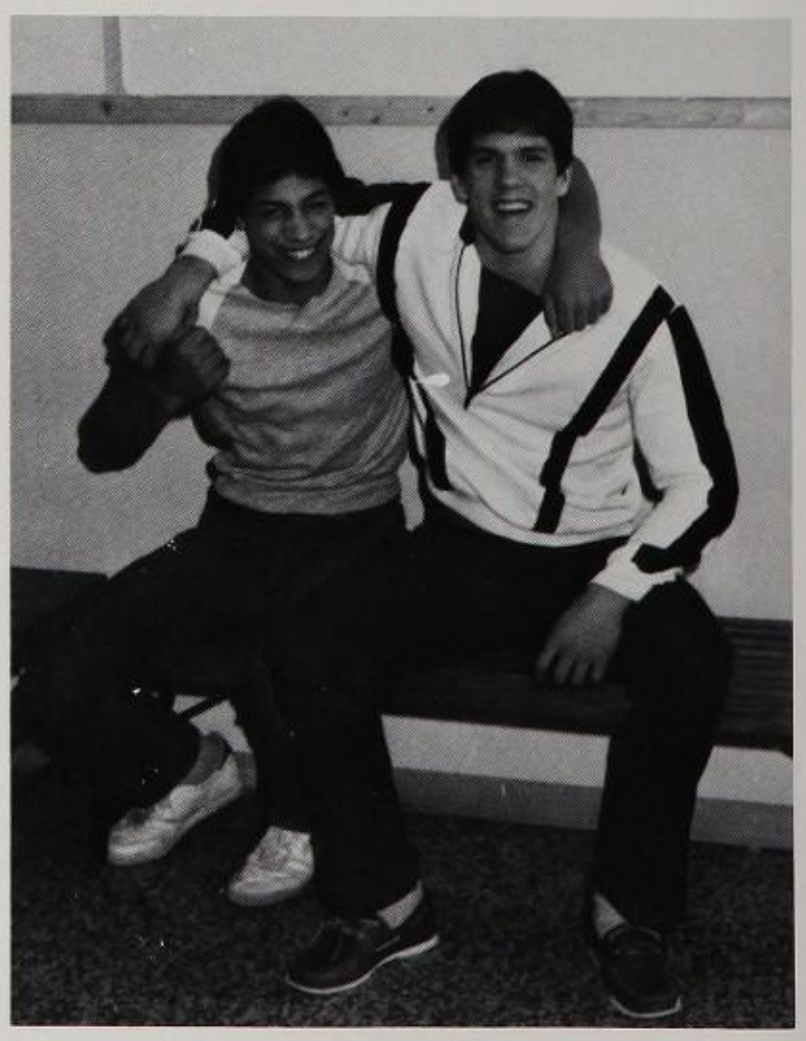
Future teacher.

Monday morning grin.





Oh no!



We're buddies!
